DEDICATION

IN MEMORY OF RON LANGTON

His smile was always so
very warm
till we lost him one early
morn.
He strived so hard to reach
his goal
till they took up his soul.
I'm sure he's very happy now,
His soul, God's grace did
allow.

For now he seems so far away
but we'll all see him again
some day.
A man is measured by his
heart.
A big man he was right from
the start.
Though we're all very sad
today
Joy will be ours when we see
him one day!

— Tim Booth

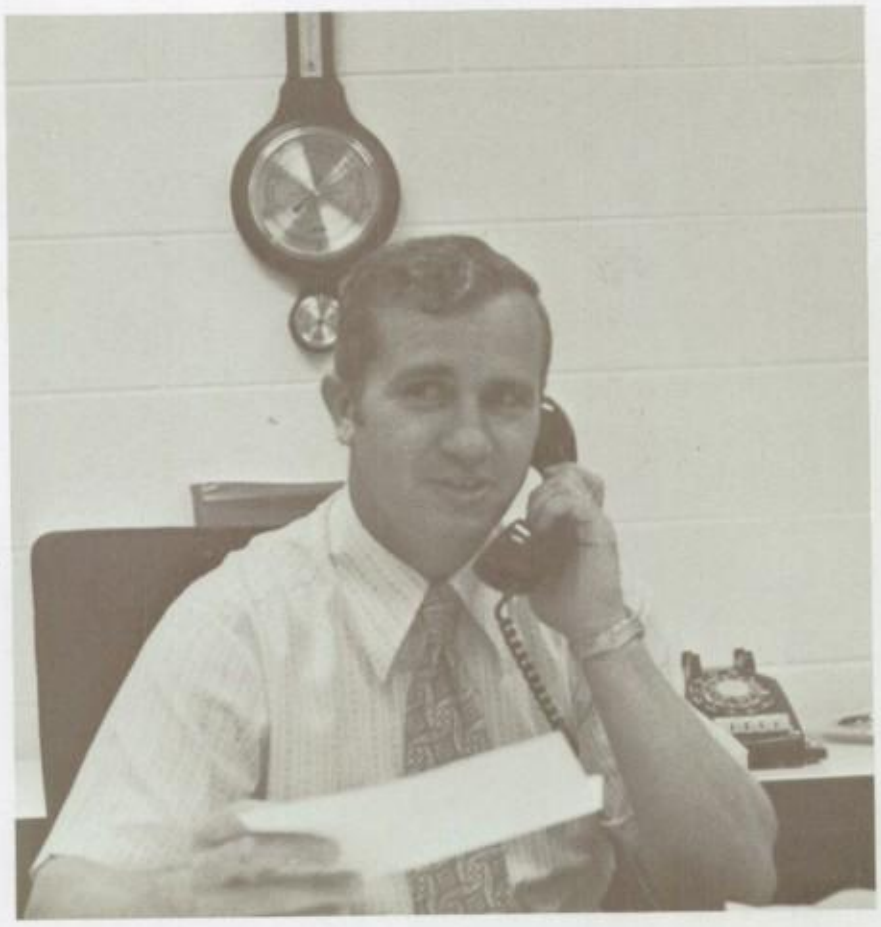
FACULTY

BROUGHT TO YOU BY . . .



mr. mccormick, our principal, problem solver, and guiding hands for making things run smoothly, is known for quick decisions, a quick wit, and for being a friend who will take the time to talk things out.

mr. couch, our boys' counselor, listens patiently to many questions and problems each day and sometimes even hears a few tall tales.

faced with the many problems of being our girls' counselor, miss couzens keeps very busy trying to solve them all.

mrs. wyche, new to our office staff this year, lends a helping hand in keeping everything straight.

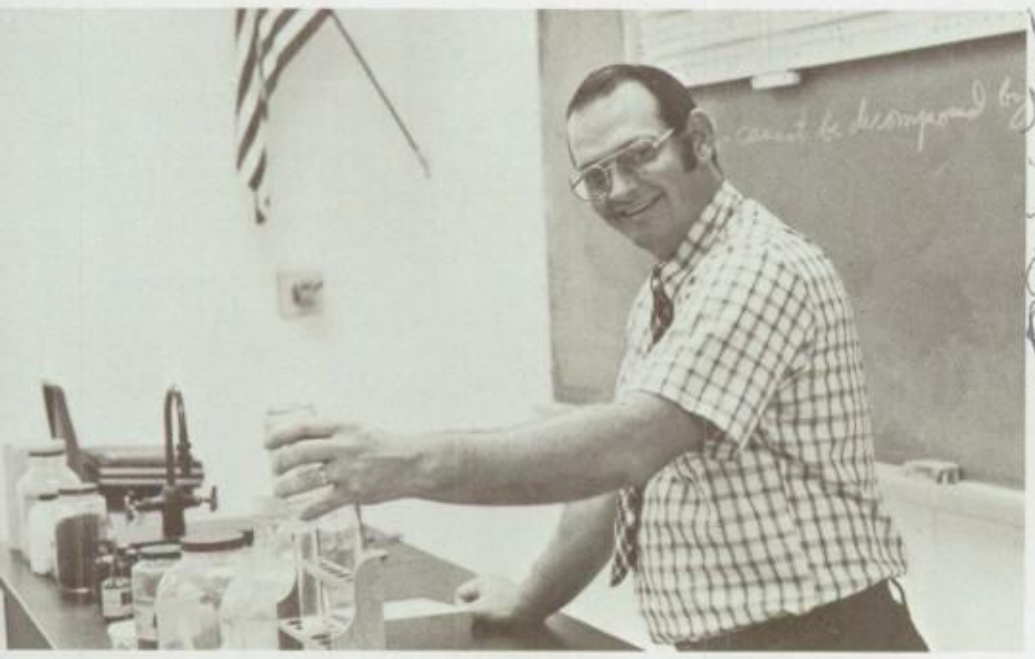
miss kreps, another new member of our staff, stays busy with filing and various jobs in the office.

besides checking the paperwork in the office, mrs. harvell checks for forgeries while signing absence excuses.

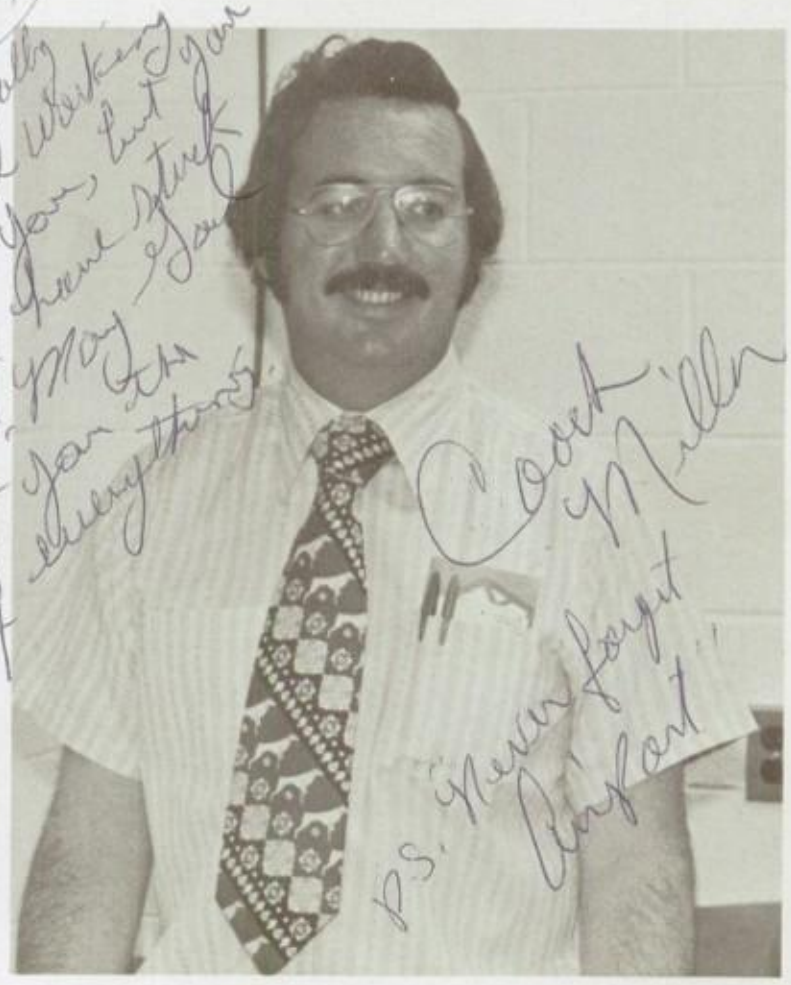
mrs. smith gets embarrassed about making the announcements and much prefers her office work.

Those who bring to us an education . . .

mr. medley — english — our first research paper, making magazines, creating commercials, watching the escapades with a talking bugs bunny, and talking about his great track team are the memories we share from his classes.



mr. hamilton is the devoted teacher to whom we owe the memory of twenty-four trig identities, zillions of symbols and charges, and dozens of acid-stained fingers.

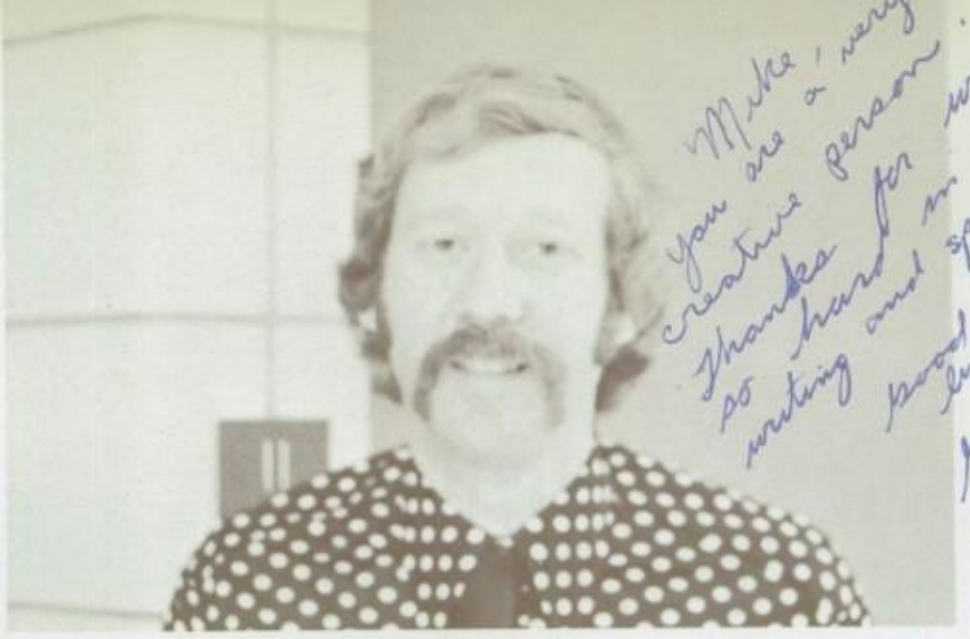


mr. miller, who teaches v.o.e. and office machines, has two philosophies of teaching. he loves all his students, and he allows ten minutes of class after a meet to tell us all about the victory.

mrs. fiedler, the betty crocker of airport high, teaches all home economics classes and strives to turn her students into the world's future julia childs.

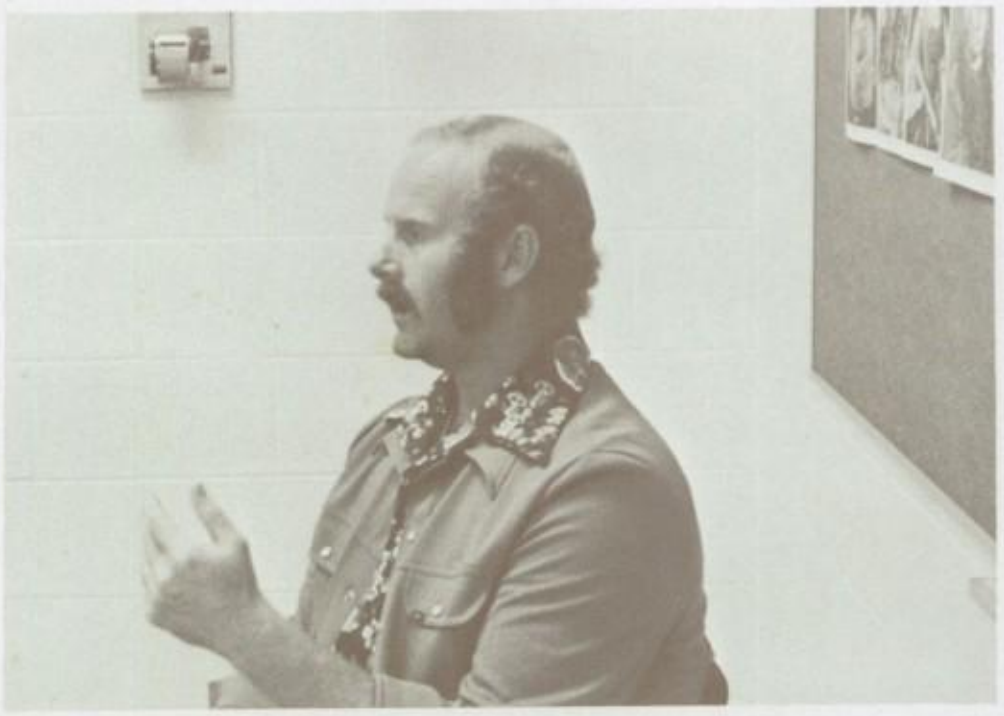
american history and government are "fast-paced" and "noteworthy" classes in which mr. cunningham strongly expresses his views on women's lib, and his favorite president r.m.n.

mr. topolski has once again organized a group of melodious voices in his chorus class and has brought song back to our school.

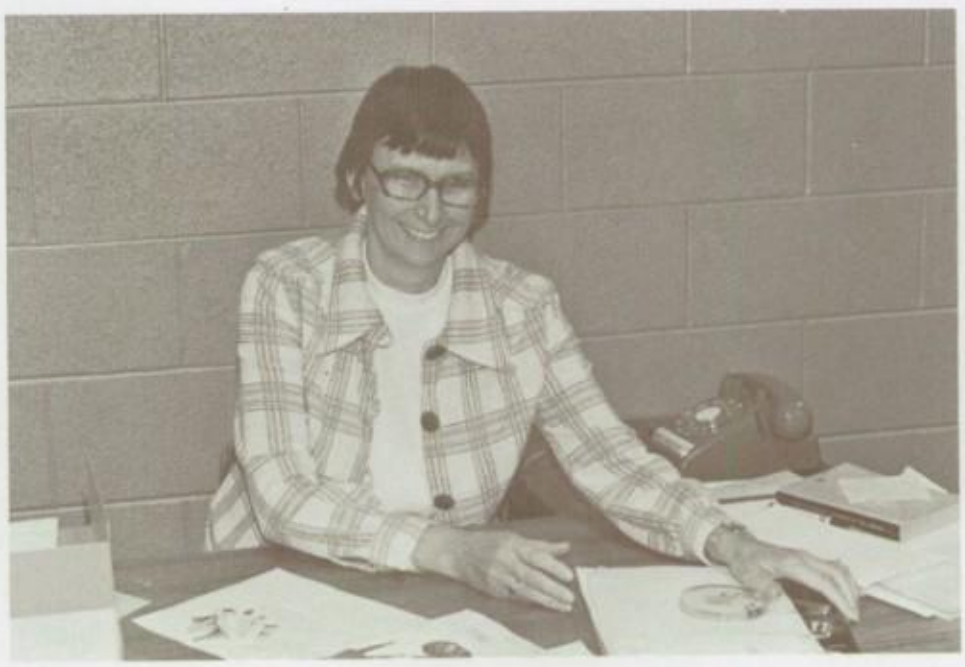


when students first see mr. gussett put a comb in his moustache and do an impression of groucho marx, they will have a smile that won't wear off for the rest of the day.

when trying to use impressionism, cubism, and other isms while painting a picture, it takes a lot of imagination to survive in mrs. meland's art classes.



mr. beardsley always interests his p.e. and world history classes with tales of his journeys in europe, police adventures, and stories of his experiences in various topics.



mrs. whiteaker certainly displays a "flair" for teaching shorthand and provides each day a room full of practice for the future secretaries in v.o.e.

. . . are those who set us upon the road to success.

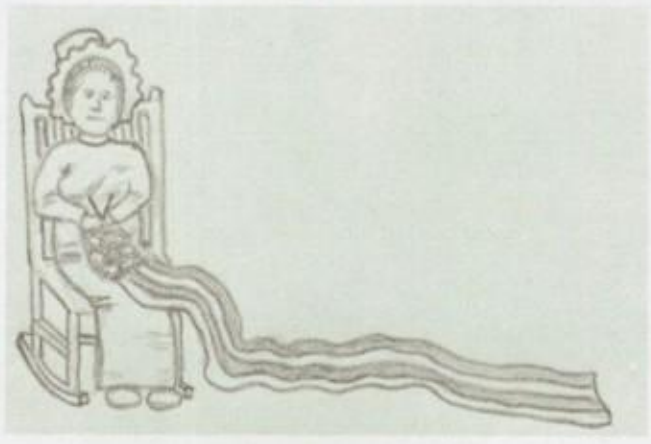
mr. matthews really loves music and this year he and his varsity band put together many spectacular half time shows, and the concert band performed great concerts.

no wonder mr. price "acts" differently than the rest of our faculty . . . he's been taking lessons from all those wonderfully crazy people in his drama classes.

being one of the shorter members of our faculty, mrs. webster can often be seen sitting on her desk while reviewing grammar and discussing the literature assignments in her english classes.

because they devote so much time to publishing ours and other school newspapers in the area, mr. thornton and the graphic arts classes are the first people to get to read the AIRPORTER each week.

mr. yeager, who teaches physical science and physics, conducts loud experiments and once in a while will show up with a big nose and a yellow beard.



with patience and dedication like that, she should have been a teacher.

Mike, It was a real pleasure chatting with you to talk to in study hall. Mrs. Krompak Isn't always! Feel. Great

mrs. krompak — english, math — of all the problems she solved while teaching her classes, the most difficult was keeping her sanity in the BEACON class.

there are many "times" in mr. chiolino's typing classes when his alphabet seems repetitious (jjffjf) and the papers that he returns always seem the same — marked "do over".

in bookkeeping and consumers education, mr. meyers proudly reminds us of his dundee heritage and of the business establishment that he owns.

madame rowell toujours a une histoire amusante que met-trait in grand sourire sur les visages de ses etudiants de francais.

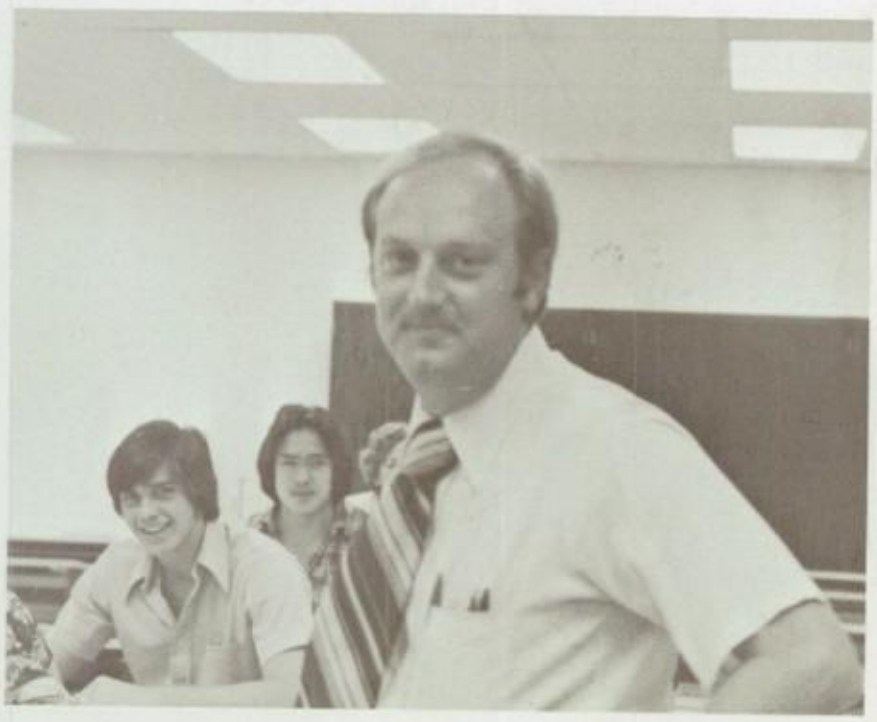
mr. kohn, who many students suggest get his handwriting analyzed, unknowingly smiles for the camera while conversing in the hall.

in mr. kurtansky's shop classes, everyone looks forward to the time that they finally have all the knowledge needed to create their masterpiece of wood and steel.

mrs. jacobs, known to her students as thelma j., teaches gymnastics and folk dancing along with a wide variety of sports in her gym classes.

mr. potratz is one teacher who can make learning and fun add up to success in the future of his general math students.

mr. gardner says that he really enjoys having girls in his auto shop classes this year. have you noticed how much more often he smiles?

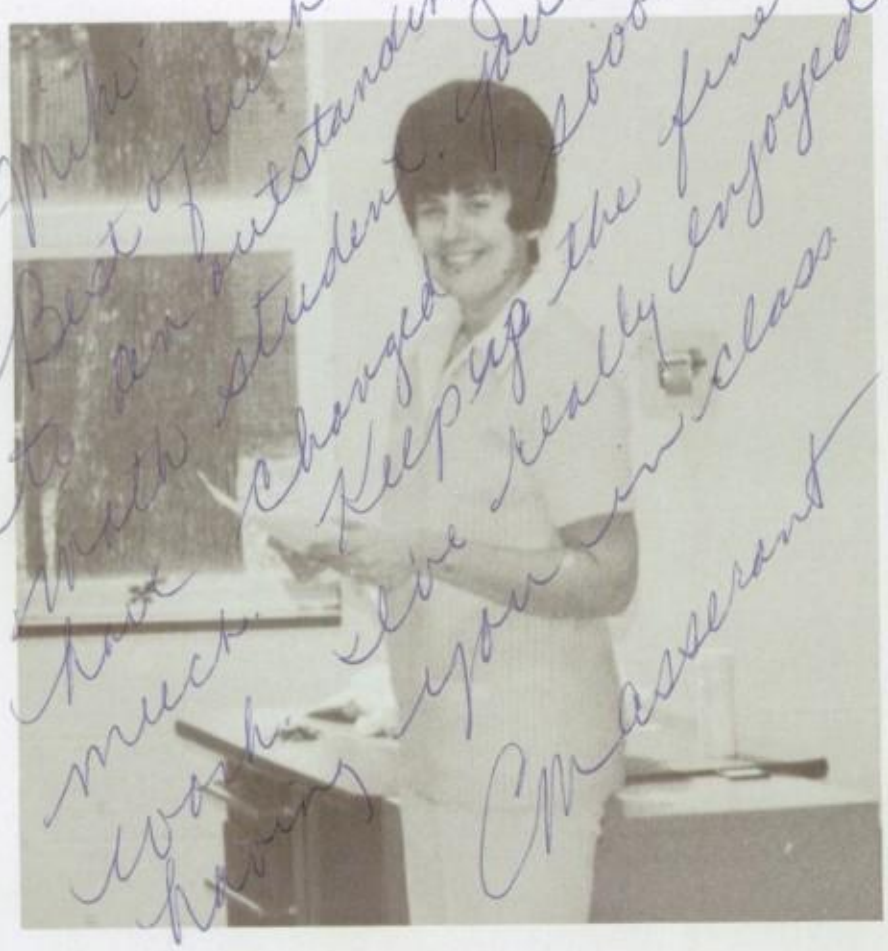


mr. al potratz and his imaginative architecture and mechanical drawing classes should have designed the blueprints for the new high school.

mrs. dennis, who teaches english and spanish, often tells unfunny jokes with no punch line, and claims to also speak italian, french, german, and other assorted languages.

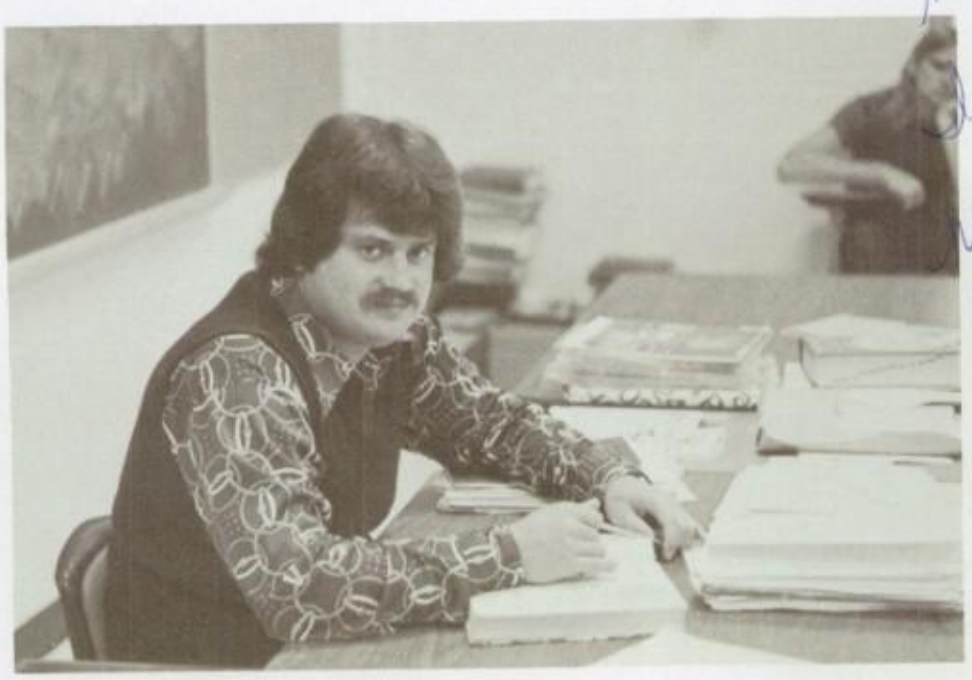
THE WHOLE ART OF TEACHING
IS ONLY THE ART OF
AWAKENING THE NATURAL
CURIOSITY OF YOUNG MINDS . . .
— ANATOLE FRANCE

miss rariden keeps her english classes busy with vocabulary specialties and thought probing conversations, and she always seems to have an extra deadline on hand to keep the AIRPORTER staff on its toes.



mrs. masserant, who teaches algebra, geometry, and general math, is very devoted and is always willing to spend time after class inspiring her students to be mathematical geniuses.

mr. hull- michigan history, sociology, and p.e. — riding a tree, ferris wheel parking lots, and women working on assembly lines are some of the topics often discussed in his classes.



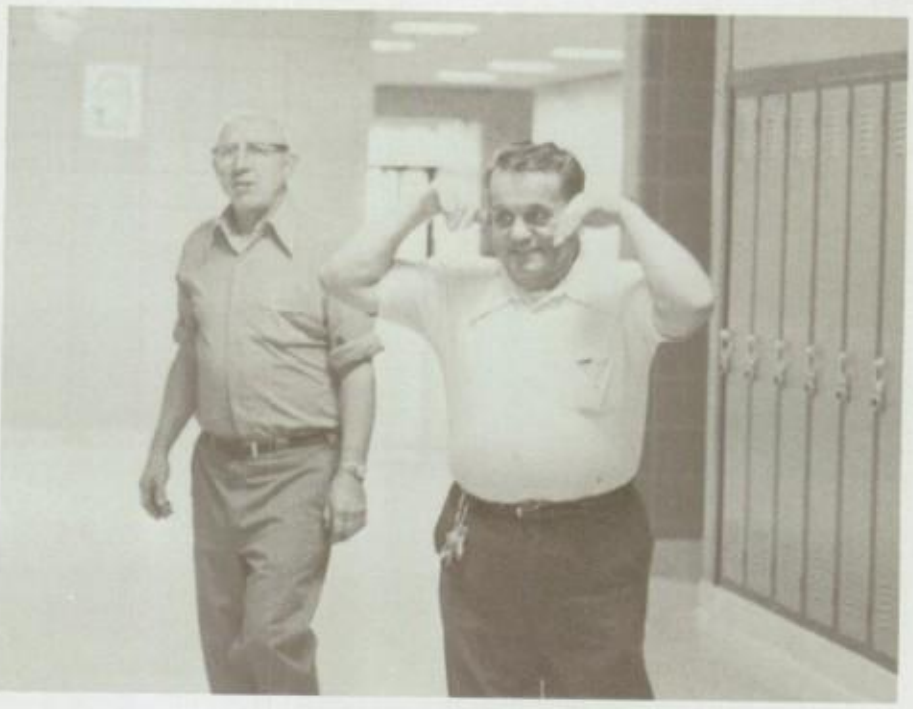
mr. rebb makes deals with his history and government students: if they'll "sit back and relax" while he "pipes in some music", he won't give them any homework.

mrs. kelly became the newest addition to airport's teaching staff this year. in the newly-developed resource room, she gives individual attention to students who need it.

mrs. holton has the greatest memory in school — she knows where all the books are in our library.

mrs. sundin and mrs. wiseman make a strong attempt to keep track of all the kids who run in and out of study hall.

mr. burbl, how can you smile? seeing as how you're our parking lot attendant, you must have the sorest feet in town!



mr. louie tibai and mr. frank duscheck are but two of the super maintenance men that keep our school a place to be proud of.

mr. long is another handy, helpful member of our janitorial staff.

mr. baker
mr. swick
